*Reed Tradex Vietnam*

On behalf of RX, it is our pleasure to welcome all distinguished business guests, partners, supporters, representatives from government and especially exhibitors and visitors that participate in The 14th Vietnam Manufacturing Expo (VME) and The 10th Vietnam-Japan Exhibition On Supporting Industries In Hanoi (SIE) from 09-11 August 2023, in Hanoi, Vietnam.

VME 2023 is one of the exhibitions organized by RX Tradex - ASEAN's leading exhibition organizer. We are a member of RX, the world's leading events organizer who creates high profile, targeted industry events where buyers and suppliers come together to do business. Our global portfolio includes over 400 events serving 43 industries in 22 countries, attracting 7 millions visitors.

Vietnam is gaining reputation as a top destination of new investment for manufacturing to meet the rapid increase in demand for both export and domestic consumption. RX believes that exhibitions is one of the most critical platforms for international and domestic buyers and sellers to meet and create new business opportunities, whilst helping grow Vietnam's capabilities and competitiveness.

# EMBRACING HYPER CONNECTIVITY OF MANUFACTURING INNOVATION

This year, VME will be displaying the latest machineries and technologies for manufacturing and supporting industries by 200 brands from 20 leading technology countries including Japan, Korea, China, Taiwan, Thailand and others; together with the participation of more than 200 international booths and many leading companies in Vietnam as well as the inaugural launch of the Fastener Fair Vietnam Pavilion and ViMAT – Vietnam Material Handling Exhibition Pavilion.

VME 2023 will create business opportunities for both Global brands and Small and Medium-sized Enterprises to do business with multinational companies via connecting and supporting activities during show days. Also, the exhibition will be the industry's connecting hub where over 10,000 Industrial part-making factory owners, engineers and industrialists can gather to discover new solutions and partners via special activities offered at exhibitor's booths.

I strongly believe that Vietnam Manufacturing Expo 2023 will spark new ideas and business innovations for both exhibitors and visitors.

On behalf of VME 2023 organizing committee and RX Tradex Vietnam, I would like to extend my appreciation to the Ministry of Industry and Trade Vietnam, Embassy of Japan in Vietnam, Royal Thai Embassy in Vietnam, Taipei Economic & Cultural Office in Viet Nam and specially to our key partner, the Japan External Trade Organization (JETRO) in Hanoi, as well as all individuals and organizations that support us.

I wish you all a successful experience in networking and creating new business opportunities at Vietnam Manufacturing Expo 2023 . I look forward to having your partnership in other events, programs and exhibitions organized by RX Tradex in the future.

Once again, I appreciate all of you for spending time to visit Vietnam Manufacturing Expo 2023.

Thank you.

Trong năm nay, VME sẽ trưng bày các máy móc và công nghệ mới nhất dành cho ngành sản xuất và các ngành công nghiệp hỗ trợ từ 200 thương hiệu đến từ 20 quốc gia công nghệ hàng đầu, bao gồm Nhật Bản, Hàn Quốc, Trung Quốc, Đài Loan, Thái Lan và các quốc gia khác; cùng với sự tham gia của hơn 200 gian hàng quốc tế và nhiều công ty hàng đầu tại Việt Nam, cũng như sự ra mắt lần đầu tiên của khu gian hàng của Triển lãm Sửa chữa & Cố định Việt Nam (Fastener and Fixing Vietnam 2023) và Khu gian hàng của Triển lãm Xử lý Vật liệu Việt Nam (ViMAT).
